

Support Student Mental Health Through Deeper Connection and Belonging

An Innovative, Interactive Mental Health Support and Intervention Solution

Personalized Student Mental Health Supports for Tier 2 and 3

Designed to help students understand and articulate their emotions, BASE Education is an evidence-based, CASEL-recognized student mental health platform developed by mental health professionals that provides personalized learning pathways for students needing Tier 2 and Tier 3 supports.

BASE Education is now part of the
7 MINDSETS FAMILY!

The curriculum modules are flexible, allowing teachers to teach in the modality that works best for them. The platform provides an area for journalistic introspection where students process learnings and share insights from their own lives, and a built-in crisis-alert system lets designated administrators know when a student is experiencing a mental health emergency that needs immediate intervention.

With the **BASEline Assessment Screener**, schools can assess their students' social and emotional growth at predetermined intervals throughout the year to ensure that students are achieving desired outcomes.

WHAT THE STUDENTS ARE SAYING

According to a study conducted with the assistance of Excelsior Youth Centers:

87% Students feel successful when doing BASE coursework

71% Students think about the BASE coursework on their own time

77% Use what they've learned from BASE in their everyday life

81% Students say that BASE enables them to talk about things with their therapist or counselor that they couldn't before they used the program

Base Education Student Mental Health Platform

Effective Tools and Interventions for Tier 2 and Tier 3 Levels of Support

Flexible Curriculum Modules for Personalized Learning

BASE Education's flexibility makes it an invaluable tool for tailoring interventions to individual students and groups based on their interests and needs. Some of our most frequently used modules for Tier 2 and Tier 3 supports include:

- Self-Regulation
- Anger Management
- Truancy
- Restorative Practices
- Substance Use/Misuse Series

IEP Compliance

In addition to providing behavioral intervention curriculum, BASE Education can simplify IEP compliance through screening, data capture, and personalized modules. All student participation and assessment metrics are documented in the platform for reporting on-demand to save educators' time.

Built-in Notification System for Harmful Language

Through journalistic introspection, students share how they are feeling. When words are written that would be evidence of harm to self or others, a supervising adult receives a real-time alert of the entry. Even if deleted, all text is captured for the supervising adult to review.

About BASE Education

BASE Education, a 7 Mindsets solution, is a comprehensive student mental health platform that offers psychologically safe curriculum and personalized learning pathways for students needing Tier 2 and 3 behavioral supports. Founded in 2014, BASE Education is recognized by CASEL for its high-quality content, innovation, and other implementation supports, including a built-in warning system for crisis intervention. Since its launch, BASE Education has been used by more than 500,000 students nationwide.
