

EVERYTHING IS POSSIBLE

IDEAS FROM YOUR RIDICULOUSLY AMAZING SERVICES TEAM!

MINDSET FOCUS

Everything is Possible challenges all to expect greatness. We expect greatness from our students by giving them hope, sharing a growth mindset, and giving them the tools they need to live joyful & successful lives.

The lessons in this unit are:

- 1.1 Dream Big
- 1.2 Embrace Creativity
- 1.3 Think Positive
- 1.4 Act & Adjust

Find out more:

- Activities, resources & more in the [Transformation Toolkit](#)
- Read the [7 Mindsets Booklet](#)
- View the [EIP Student Video](#)

- 5 *Joy*
Andy Grammer
- 6 *Defying Gravity*
Idina Menzel
- 7 *Mr. Blue Sky*
Electric Light Orchestra

**What's on your building's
Everything is Possible playlist?**

EDUCATOR MINDSETS

Dream Big: How do you stay connected to your personal aspirations, even when life gets busy?

Embrace Creativity: How do you nurture your own creativity outside of work?

Think Positive: How do you handle negative thoughts or self-doubt, and what do you do to shift to a more positive mindset?

Act and Adjust: What strategies do you use to reflect on and adjust your teaching practices over time?

MAKE THE MINDSETS VISIBLE

Encourage school-wide participation, fostering a sense of community and shared purpose!

Download posters (available in Spanish & English) from the [resource hub](#) to decorate your classroom bulletin boards.

Create a schoolwide **Everything is Possible** playlist of songs that promote big dreams, positivity, creativity, and overcoming challenges!

Start a **Think Positive** chain where students/teachers write positive affirmations, compliments, or messages of encouragement on strips of paper, which form a school-wide paper chain that keeps growing.

Highlight resilience and growth mindset by displaying examples of how students or famous figures have **Acted and Adjusted** when faced with failure or challenges.

CONNECT TO YOUR CONTENT

Extend the mindsets in your classroom learning!

MATH

Embrace Creativity: **Math Escape Room**

Create a classroom escape room where teams of students flex their problem solving skills to solve math-based puzzles to unlock clues and "escape."

SCIENCE

Dream Big: Future World **Creative Writing**

Students write short stories or essays about what the world might look like in 100 years, focusing on technological, social, or environmental changes.

SOC. STUDIES

Dream Big: **World Influencer Symposium**

Research visionary historical figures as a class, then have students imagine themselves as influential leaders of the future, presenting speeches on their global visions.

ELA

Act and Adjust: **Hero's Journey**

Analyze stories where characters persevere through adversity, highlighting characters who were forced to rethink their path forward. Then have students write their own "hero's journey."

PHYS. ED

Embrace Creativity: **Create-a-Sport**

In groups, students invent a new sport, making rules, equipment, and demonstrating it to the class. This encourages creativity in movement and strategy.

TECHNOLOGY

Think Positive: **Technology for Good**

Students research and present examples of how technology is solving global problems (e.g., accessibility, health tech), fostering optimism about the power of innovation.

ARTS

Think Positive: **Museum of Motivation**

Curate a class gallery of artworks that promote positivity and resilience, then have students reflect on the emotional impact of these pieces.

CAREER

Act and Adjust: **"What If?" Career Roadmap**

Students create a career roadmap where they plan for different "what if" scenarios showing how they will adjust their plans to still achieve their goals.
